CHARGE AGAINST GOV SELICE

NEWARK WANTS TO "PULL UP THE CUR TAINS" ON SENATUR M'PHERSON'S NOMINEE.

Ever since President Cleveland appointed Col C Meyer Zulick, of Newark, governor of Arizona territory, his political enemies in the democratic party have made determined efforts to de eat his confirmation by the United States sen-

As was recently stated in the Herald a suit was brought against him as the president of the New Jers y and Sonora Reduction company by some of the stockholders of the concern. In the bill of complaint fied in the Nev Jersey rourt of chancery it is alleged that he wilfully misrepresented the affairs of the company and induced people many of whom were his intimate friends, to invest money in the company, and subsequently the funds were used for the devel spinent of a silver mine in Sonora, Mexico. A fail history of the case was forwa ded to Washington.

SERIOUS CHARGES.

During the last few days another scandal was created by the production of an affitavit made by A derman Goo S Smith, of Newark, in which he makes very serious charges against Col. Zalick in connection with his nomination for surrogate of Essex county and the election which followed. An account o Alderman Smith's terrible death from coatbon maligne was published in the Herald two months ago. He had been a close personal friend of Colonel Zulick for many years, bu just prior to his death a coolness was noticed between them The affiliavit was made several month before his death and probably woul remain the excusive property of the senate if he were alive to-day.

THE AFFIDAVIC.

It is now in possession of Senator Harrison, of Indiana, chairman of the the committee on territories, but a copy of it is preserved in Newark. It details various practices, which, it alleges, governor Zatick indulged in during Andrew Johnson's administration, when Zulick held for a brief period the position of U S. Assessor for the Newark district, and refers to the manner in which the offices general election (1884) when Zulick was a candidate for Surregate and was defested, he approached Alderman Smith, then chairman of the public buildings committee, and proposed a plan by which, when a recount of the ballot boxe, was called for, it would show that Zulick was elected and not defeated, as was previously announced. In the affidavit Alderman Smith stated the he was actuated in making it solely by a desire to show that Zulick was not a proper person to hold the office of governor of Anz ma or any position under the demo cratic administration.

THE PRESIDENT AND SENATUR M'PHER-

Speaking of the affi lavit a well-known New Jersey politician said to a Hera = reporter yesterday: "President Clevland was very angry when he heard or the affidavit, and immediately sent for Senator McPherson, who recommended Zun k's appointment. The latter sen for several Newark democrats and asked to have the matter invests ated. Aller man Smith was seen a week beto ch death. He is fit as d his charges and promised to give them in detail. The here he was working upon a full statement when he died. The whole matter has been referred to a sub-committee consisting of Senat rs George, of Miss issippi and Cullian, of Libraris, who were mine mat er."

It is understood that there are other charges against G werner Zalick in the axissess on of the senate committee, and m s of he and me is being for whed sair meent Palaleinhes democr t. Z i a on h the - Now York Herald,

THOUSAND TERSED OUT. What will be said by the good democrais and mugwamps who have been declaring that less than a thousand president, when they read that the postmaster general has informed the senate

In Pennsylvania alone 938 portoffices have changed their holders from Republicans to democrats. New York, Ohio and I timos have lost from 600 to 1.000 each, and the rest of the states have undergone changes in proportion, except that in Massachusetts there have been fewer changes in proportion than in any other republican state.

Democrats doubtless will rejoice to learn that so many of their friends are "in." Republicans will shrug their shoulders and say "fortune of war." But what will the mug sumps say? According to their theories these petty offices are just the ones which ought to remain unchanged with a change of administration. We fear that neither this nor any other administration will ever accept the marwano vi w of the postoffices. -- Ex

Mrs. James Brown Potter who shocked Washington society with her recitation of "Ostler Joe," intends going on the stage. She has played "Juliet" once or twice, until her husband. !. B P. aforesaid, became jealous of the realistic way in which she hugged "Romeo" and put a stop to it. She is a New Orleans girl, or was before she was married. The wonterful advertising she has received lately a the newspapers has given her such a om that there is no doubt that she would make a great financ al hit. This errainly may overcome her husband's crupies, for there is a great deal of disterence between being the husband of an amateur actress and seeing one's wife take a recognised position as a star. So we may expect to see the lovely bru ette investi ating it ocether with the Sonors on at season in a play written especially for her, with a recitation of "Ostler Joe" brought in as an attract on, -Ex.
